学生に発揮させる社会人基礎力の能力要素 Fundamental Competencies		学生に求める社会人基礎力の能力要素の具体的行動事例 Student Action				
ACTION	Initiative	In language training, it is very important to practice independently. Each student should get motivated and work on improving Japanese grammar & conversation skills by using supplement teaching aid under the support of the Japanese instructor.				
	Ability to Influence	Each student will be able to use Japanese as a communication tool in order to influence others in the globalized society.				
	Execution Skill	By gaining confidence through hard work, each student who is likely to have the sense of anxiety or being afraid to make mistakes when learning a foreign language will be able to turn these feelings into the ability to take actions.				
THINKING	Ability to Detect Issues	Through self-training & group work, each student will be able to focus on what problems he/she has to deal with and understand what should be corrected in order to exploit a better way to present Japanese.				
	Planning Skill	There should be flexibility in planning future jobs as a result of the language training. Each student should see to it that opportunities are waiting no matter what the necessity for Japanese is at that point, but should always be their strong tool.				
	Creativity	Through the supplementary work & training, each student will feel a sense of accomplishment which will enable him/her to establish a more creative training method.				
TEAMWORK	Ability to Deliver Message	As a means of communication, each student will be able to realize the interaction between various people by using Japanese, which enables him/her to share personal idea or opinion.				
	Ability to Listen Closely & Carefully	By listening & speaking Japanese, each student will be able to understand the idea & opinion of the Japanese people accurately.				
	Flexibility	By studying Japanese, each student will be able to understand the feelings of people who have different cultures & thoughts, which enables him/her to think in their position and have meaningful discussions for problem solving.				
	Ability to Grasp Situations	By acting positively, each student will recognize the situation of various people and will be able to use his/her communication skills to establish better mutual understanding.				
	Ability to Apply Rules & Regulations	Each student will learn the rules & discipline of other cultures, and will be able to take appropriate measures if he/she has the opportunity to go abroad.				
	Ability to Control Stress	By going through hard work, each student will improve communication skills with less stress. In this way, he/she will also be able to state his/her personal feelings.
